SHORT
model

SHORT multi Dock Fender **dimensions**

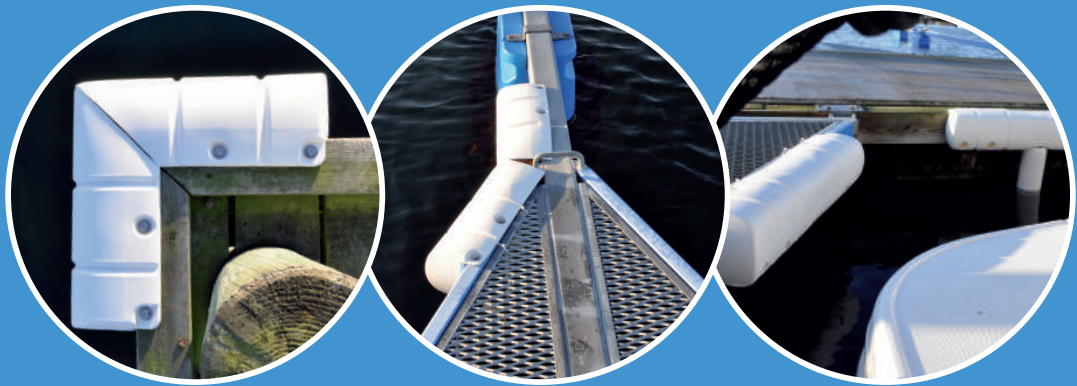

Correct inflation

The SHORT Multi Dock Fender is a “low pressure” product and already inflated at delivery
- Do NOT add more air/pressure prior to mounting! If extra air/pressure is needed later on, then use the DAN-FENDER hand pump or a compressor for easiest inflation.

More info at: www.danfender.com

SHORT multi Dock Fender
is in family with the
Multifunctional Dock Fender

The SHORT multi Dock Fender has same design as the Multifunctional Dock Fender (5 in 1)... it's just shorter.
